

OSA ARCHITECTURE LTD.

TED J. THOMAS
& ASSOCIATES Ltd.

To whom it may concern;

We have known and been involved with Encan Construction Ltd for over 12 years. The following is a description of our involvement with them:

- 1] Cost consulting
- 2] Construction reviews and materials sourcing
- 3] Design build partnerships
- 4] Tendered projects as coordinated by this office
- 5] Contractors for projects as produced by this office

In a historical perspective this office along with our clients have always had a high regard for Encans' professionalism. That is their commitment to quality, costs savings, project budgeting, site management and administrative qualities have demonstrated a very high level of competency. In the real world there is no such thing as perfection with regard to Architecture and Construction. It is more a point of resolving issues as they occur. To this a sense of team cooperation is mandatory. Encan's project portfolio suggests this and in addition to this is the basis of client trust as evidenced by this office. Without hesitation we would recommend Encan Construction Ltd. to any requiring their services. If there are any questions to the above please feel free to contact this office at any time.

Yours truly

Orest Solony Architect ,
